PSC APPROVES WATER & SEWER SYSTEM TRANSFER

JEFFERSON CITY---The Missouri Public Service Commission has approved an application filed by the South Jefferson County Utility Company authorizing the transfer of its water and sewer system to the Summer Set Property Owners Association.

South Jefferson County Utility Company was granted authority by the Public Service Commission in 1974 to provide water and sewer service in Summer Set. In 1979, the Summer Set Property Owners Association purchased all of the outstanding shares of the company with the company continuing to provide water and sewer service to Summer Set residents. In this case, the property owners association seeks to assume full control of its utility services, independent of the Commission's regulatory authority.

The Commission reviewed the application as well as the PSC Staff recommendation for approval. Based upon that review, the Commission has determined the proposed transfer will not be detrimental to the public and should be approved.

South Jefferson County Utility Company serves approximately 255 water and sewer customers in an area known as Summer Set near DeSoto, Missouri.
